Transmission method	128bit encrypted radio protocol
Range in open space	1600m
3V lithium battery included	1 x CR123A
Minimum battery life (years)	2
Warranty	2 years
<b>Certifications</b>	
Electrical conformity	CE
EN50131	Grade 2
Environmental class	II
	CA12.01482

## Adaptable, optimised & stylish

### • Different colours available

Pick from either white or brown (MC1MINI-BROWN-WE) to deliver the desired look.

### • ABS plastics

2mm polished finish produces a professional and sleek finish while reducing electrostatic interference.

Faster installation, less invasion, upsell opportunities & the same superior security with two-way wireless technology

### • No wires, no fuss

As the system is fully wireless there is no need to run wiring by lifting floorboards or moving furniture, saving you time and money.

### • One-Push-To-Learn

A feature in all Enforcer wireless devices that means learning them onto the system can be done in seconds. A simple one button learning feature for easy installation.

### • Signal Strength Indicators (SSI)

SSI in all Enforcer wireless devices allow them to be optimally positioned during installation, without the need to refer back to the panel.

### • Self-aware sensors

The sensor will tell the control panel when it has low battery, is in fault, or has failed supervision. The sensors provide the information the control panel needs to ensure it stays safe and secure.

### Beat the burglar with tamper protection

This ensures that maximum security is maintained against accidental or malicious tampering of the system, providing that added peace of mind that the system is secure.

### Meet the required security standard with Grading options

The MC1MINI-WE is Grade 2 for the superior security the installation needs.
